Prime Brokerage

Since 1983, Glenmore Capital has been an innovator in the financial field, offering clients the most advanced interfaces available. Today Glenmore Capital prides itself in being the top most brokerage exclusively dealing with high velocity trading and online investments.

Segregated Accounts

In today's market it's important to ensure the safety of your capital. While most investment banks pool investors money together to leverage their profits. Glenmore Capital offers segregated accounts exclusively, thereby protecting your portfolio equity and preserving your account funds.

Insured Client Funds

With Glenmore Capital you can be sure that your funds are secure. On top of a rigorous security system and account segregation, Each and every dollar invested with us is insured against hacks and internal errors.

Negative Balance Protection

If you've invested before you know how deep a hole you can dig using leverage with your online investments. As a client of Glenmore Capital you are capped against creating debt, so you can be sure that the funds you deposit are the only funds you're going to need.

Mobile App

Glenmore Capital prides itself in having the most advanced online investment interfaces- and mobile is no different. Using our mobile app you can be sure you're always connected to your portfolio, Receiving notifications on closing positions as well as comprehensive functionality to do as you would on the web.

MetaTrader 4

Glenmore Capital prides itself in having the most advanced online investment interfaces. Using MetaTrader 4 for optimizing your financial investments can make all the difference - with live and comprehensive technical analysis data presented in a clear and concise manner as well as

signal capabilities from any financial source, you'll soon be breaking regular interest rates on the desktop, and mobile too.

iFollow

Glenmore Capital's iFollow is a simple yet advanced online investment tool which opens anyone to the possibility of achieving the top return on investment results- all with a simple Follow.

The social trading platform allows you to use the expertise and results of other investors by opening positions influenced by their actions. It's as if the best traders were managing your online investments portfolio.

Long Term

A product for the knowledgeable investor - using fundamental analysis for your online investments can be a powerful tool, though using it on short term positions may be challenging. The long term investment allows you to open a position on a broader spectrum thereby relying not only on technical analysis but on all the comprehensive data of the asset.

Strategy Advisor

Glenmore Capital's Strategy Advisor is a unique financial tool allowing on demand automated technical analysis for any asset based on the most advanced economic models- the Relative Strength Index (RSI), the Moving Average (MA) and the Bollinger Bands. The strategy advisor thoroughly analyses an asset's behaviour on the basis of its past value and timeframe.

Interactive Academy

We at Glenmore Capital aim to accommodate our clientele with the most advanced, comprehensive and understandable educational content written by our financial team and produced by the top educational experts. Using our Interactive Academy anyone may become a professional investor quickly and easily.

Daily Asset Review

The financial market is a highly volatile ecosystem. Glenmore Capital's daily asset review will bring order to the chaos and review a different asset each day. Using fundamental and technical analysis, each review will explain the asset's current position, its interactions with other assets and indicators, as well as its relation to global affairs.

Personal Account Manager

We at Glenmore Capital care for your success and understand the steep learning curve affecting new online investors. For this exact reason we provide each and every client with a personal account manager to walk him through the treads of the trading world.

Economic Tools

Knowledge is Power - this is a widely acceptable concept in any field of practice, and it's become lore for financial traders. Using Glenmore Capital's economic tools, you'll always have the utmost relevant, concise and accurate market information at your fingertips including financial events, and advanced calculations.

PRODUCTS

iFollow

Glenmore Capital's iFollow is a simple yet advanced online investments tool which opens anyone to the possibility of achieving the top return on investment results- all with a simple Follow.

The social trading platform allows you to use the expertise and results of other investors by opening positions influenced by their actions. It's as if the best traders were managing your online investments portfolio.

The benefits of using iFollow are clear and concise, by using it you not only profit from the positions opened by chosen investors but by analyzing and exploring those profitable positions you also autodidactically learn how to open like minded positions on a regular basis and on your own merit.

Long Term

A product for the knowledgeable investor - using fundamental analysis for your online investments can be a powerful tool, though using it on short term positions may be challenging. The long term investment allows you to open a position on a broader spectrum thereby relying not only on technical analysis but on all the comprehensive data of the asset.

Long term investments are highly profitable transactions for those who know what they're looking for - just home in on the asset you're targeting, open a long term position and see your speculations become a reality.

Great wisdom is often accompanied by great profitability.

Strategy Advisor

Glenmore Capital's Strategy Advisor is a unique financial tool allowing on demand automated technical analysis for any asset based on the most advanced economic models- the Relative Strength Index (RSI), the Moving Average (MA) and the Bollinger Bands. The strategy advisor thoroughly analyses an asset's behaviour on the basis of its past value and timeframe.

RSI

The **relative strength index (RSI)** is a technical indicator used in the analysis of financial markets. It is intended to chart the current and historical strength or weakness of a stock or market based on the closing prices of a recent trading period.

MA

The **Moving Average (MA)** is a widely used technical indicator that helps smooth out price action by filtering out the "noise" from random price fluctuations.

Bollinger Bands

The **Bollinger Bands** are a technical volatility indicator which is used to measure the "highness" or "lowness" of the price relative to previous positions.

The Ladder

The Ladder is a powerful tool allowing for cross-value online investments. By using it you have multiple opportunities to place a trade at different payout percentages.

With the Ladder, you invest against 5 'strike' prices which are spaced at equal intervals- just like the rungs of a ladder, for any preset level you simply predict whether the underlying asset will close above or below the strike price within a certain timeframe.

FOREX

Foreign Exchange positions are highly configurable online investments offering assets ranging from currency pairs to commodities and allowing for the most advanced automated responses to asset value fluctuations. With Forex you are allowed a configurable **leverage** which enables you to adjust your profit potential, **stop loss** allowing a quick exit from failing positions. and **take profit** allowing you to automatically close positions from a certain profit rate. When applied properly these tools allow you to reach an optimum of minimized risks vs. maximum profits.

Pairs

Trading Pairs is perfect for traders looking to diversify their online investment portfolio. Pairs Options focus on the relationship between two similar assets such as Apple vs. Google, Gold vs. Silver, Dax vs. CAC, USD vs. EUR, etc. and select these asset pairs to go head-to-head and see who outperforms the other within the timeframe.

60 Seconds

High velocity trading at it's best! This financial product is designed specifically for traders relishing the fast-paced world of online investments. Sixty Seconds allows you to invest on the asset differential within a 30 seconds to 5 minute timeframe and are therefore the quickest and most exponential way of raising portfolio equity.

High Velocity Trades

High Velocity trades are your way of investing on a specific asset of any kind- be it stocks, currencies, commodities or indices, in an easy and understandable manner, predicting whether it's value will rise or fall within a certain timeframe.

One Touch

With higher than usual return on investment as well as the ability for trading during times when the markets are closed, One Touch is one of the most popular financial products available today. One Touch allows for an online investment determining whether a certain asset will reach a predetermined value within the timeframe- the asset only needs to reach this value once during the timeframe and you're in the money.

BANNERS

Registration

With a simple online registration procedure becoming a capital investor has never been easier. Simply open an online account, deposit funds and start your online investments portfolio.

Capital V.O.D

Glenmore Capital's exclusive Video Education Academy is specifically designed to improve the skills and knowledge base of any trader - from complete beginner to experienced trader; we make sure you go equipped into the financial arena.

Interactive Academy

Glenmore Capital's Interactive Academy attributes it's market depth and knowledge base to many years of acquired knowledge and experience. From the trading floors of varied financial institutions. The Interactive Academy's Trading Central is registered with the U.S. Securities and Exchange Commission (SEC), as an official Investment Advisor.

Deposit

With Glenmore Capital you can now deposit funds reliably, securely and immediately directly to your online investments portfolio via Credit Card, Wire Transfer & Bitcoin, for your utmost convenience.

Payment -> Deposit.

Disclaimer

With most investment banks you'll get draconian disclaimers filled with fee's and fine print, Not with us. at Glenmore Capital we work rigorously to offer our services with a minimal amount of friction so you can head out and start expanding your online investment portfolio quickly and easily.
